SUMMARY

Full-Stack Developer with strong expertise in building scalable web applications using React.js, Node.js, and MongoDB, along with a solid foundation in Data Structures and Algorithms. Experienced in designing RESTful APIs, implementing secure authentication systems, and managing end-to-end application workflows. Familiar with modern development practices including Git-based collaboration and cloud deployment. Currently exploring Generative AI and Python to build intelligent, AI-driven web systems and enhance real-world application capabilities.

EXPERIENCE

Full Stack Developer (Lead) | Group Project | Jan 2026 – Present

Developed a full-stack grievance management platform using Node.js, React.js, and MongoDB. Engineered RESTful APIs with secure JWT-based authentication and role-based access control. Built scalable backend workflows and automated escalation logic. Improved system response time by 35% and reduced escalation time by 50%. Collaborated using Git-based workflows and followed modular, maintainable architecture practices.

PROJECTS

HostelResolve - Hostel Complaints Management System | [GitHub](#) Feb 2026 React.js, Node.js, Express.js, MongoDB, Redux Toolkit, JWT, Nodemailer, CSS

Architected a scalable full-stack web application using React.js, Node.js, Express.js, and MongoDB. Implemented Role-Based Access Control (RBAC) with JWT authentication and protected routes. Engineered scalable RESTful APIs for managing end-to-end complaint workflows. Used Redux Toolkit for efficient global state management and improved UI responsiveness. Structured the project using a modular and scalable architecture aligned with industry best practices.

Hostmate - Room & Home Rental Platform | [GitHub](#) Jun 2025 – Present Node.js, Express.js, MongoDB, EJS, Bootstrap, Stripe, MapLibre, Cloudinary, Render (deployed on AWS)

Developed a full-stack rental platform using Node.js, Express.js, MongoDB, and EJS. Implemented secure authentication, booking workflows, and payment integration using Stripe. Integrated geolocation based search using MapLibre and OpenStreetMap APIs. Optimized backend queries and improved API performance for better scalability. Deployed on cloud infrastructure (AWS/Render) ensuring reliability and performance.

CERTIFICATIONS & ACHIEVEMENTS

Java Certified - Data Structure & Algorithm (June 2024) | Credential ID: 662fa0f98bc9344703016d06

Full Stack Developer - MERN Stack (Jan 2026) | Credential ID: 66b4d31180c9fe2a87035972

AI Fluency - Framework & Foundations – Anthropic (Mar 2026) | Credential ID: b3axfxve3ji7

SKILLS

Languages: Java, JavaScript, Python

Frontend: React, HTML, CSS, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js

Database: MySQL, MongoDB

Tools: Visual Studio Code, Git/GitHub, Postman, Hoppscotch, IntelliJ

Security: JWT, RBAC, Authentication, Authorization

EDUCATION

B.Tech in Computer Science

Medicaps University, Indore (2023 - 2027) | CGPA: 7.55/10.0
